Allowable Subject Matter

3. Claims 1-13 and 15-20 are allowed. The following is an examiner's statement of reasons for allowance.

Independent claim 1 is directed to "modifying behavior of at least one of the plurality of physicians in the healthcare practice for management of the ancillary medical costs responsive to the data gathered in the tangible computer medium; determining whether the ancillary costs of the plurality of physicians in the healthcare practice reached a predetermined level within a preselected period of time; paying funds from

the funded incentive pool to the healthcare practice participating in the insurance network when the ancillary medical costs of the plurality of physicians in the healthcare practice have not decreased to the preselected level over the preselected period of time; and distributing predetermined percentages of savings attributed to the modifying behavior of the plurality of physicians ancillary medical cost management if the ancillary medical costs of the plurality of physicians in the healthcare practice have decreased to the preselected level over the preselected period of time”.

The closest prior art of record, Leet (6,000,828) discloses method of improving drug treatment.

Rosenstein, Alan H., Shulkin, David. Health Care Strategic Management. Chicago: Sep 1991. Vol.9, Iss. 9; pg.14, 3 pgs.

However, none of the prior art cited above fairly teaches/ suggests “modifying behavior of at least one of the plurality of physicians in the healthcare practice for management of the ancillary medical costs responsive to the data gathered in the tangible computer medium; determining whether the ancillary costs of the plurality of physicians in the healthcare practice reached a predetermined level within a preselected period of time; paying funds from the funded incentive pool to the healthcare practice participating in the insurance network when the ancillary medical costs of the plurality of physicians in the healthcare practice have not decreased to the preselected level over the preselected period of time; and distributing predetermined percentages of savings attributed to the modifying behavior of the plurality of physicians

ancillary medical cost management if the ancillary medical costs of the plurality of physicians in the healthcare practice have decreased to the preselected level over the preselected period of time", as recited in claim 1 above.

Independent claim 8 is directed to "modifying behavior of at least one of the plurality of physicians in the healthcare practice for management of the ancillary medical costs responsive to the data gathered in the tangible computer medium; determining whether the ancillary costs of the plurality of physicians in the healthcare practice reached a predetermined level within a preselected period of time; and distributing predetermined percentages of savings attributed to the modifying ancillary medical cost management behavior of the plurality of physicians the ancillary medical costs have decreased to the preselected level over the preselected period of time".

Independent claim 13 is directed to "modifying behavior of at least one of the plurality of physicians in the healthcare practice for management of the ancillary medical costs responsive to the data gathered in the tangible computer medium; determining whether the ancillary costs of the plurality of physicians in the healthcare practice reached a predetermined level within a preselected period of time; funding an incentive pool to be paid to the insurance network when the modified medical management practices do not decrease ancillary medical costs of the insurance network to the preselected level over the preselected period of time; and distributing predetermined percentages of savings attributed to the modifying behavior of the plurality of physicians the ancillary medical cost management to at least one of the insurance network and the healthcare management consultation group when the ancillary medical costs have decreased to the preselected level over the preselected period of time".
